

We believe in a world without new plastic. Through recycling workshops, we enable a conscious & sustainable use of plastic.

We develop & market sustainable surf equipment and create a new awareness for dealing with plastic through education. We act courageously, authentically and socially.

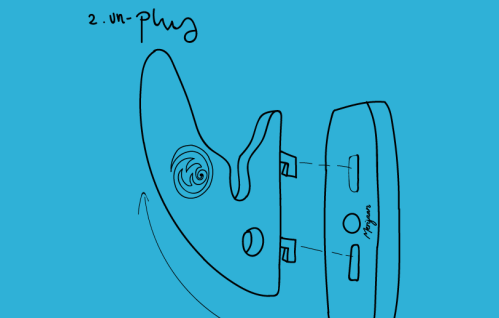

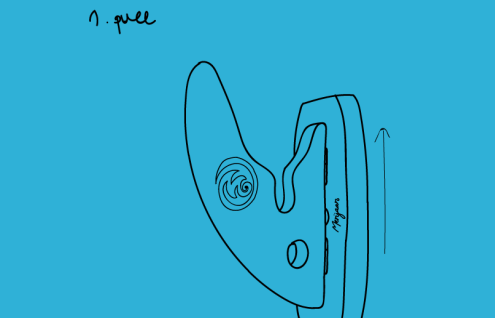

Package content

Your board rack consists of a total of 4 parts – 2 wall brackets (kiteboard shape) and 2 brackets (fins shape). We have also supplied you 2 dowels and matching screws.

Mounting & Demounting instructions

<p>Your Rack not only holds your surfboard (large cavity) but also various other boards such as kiteboards, skateboard (small cavity) or or or ... The following instructions are based on a surfboard.</p> 	<p>Find a nice spot for your Board Rack!</p> 	<p>There are different options to place your Board Rack depending on your board size.</p>
<p>Measure desired distance on your board and transfer it to the wall.</p> 		<p>Drill 2 holes according to your marks (drill size: 6mm).</p>
	<p>Insert dowels.</p> 	<p>Position the wall part and screw it tight – ATTENTION note the rear side of the wall part (see picture) place the cavity for fin-feet-mounting-part down. Only like this you can click the fin in.</p>
		
	<p>Place your board and celebrate. 😊</p>	<p>Don't forget to take a picture, send it to all friends, upload to instagram & tag us @merijaansurf 😊</p>

Your Board Rack is made out of 100% recycled plastic. Manufactured in Berlin by hand. That's why it can have small dents or streaks of color. However, this is not a mistake but part of your unique Board Rack. The sea is sometimes rough and wavy – so are our products.

Technical specifications

Load capacity of your board rack: 30kg

Load capacity of dowels:

- concrete: 60 kg
- plasterboard: 10 kg
- wood: 30 kg
- brick: 20 kg

Packaging

Our packaging bags were made by Die Wille – WERTRAUM:

The WERTRAM team consists of people with little chance of integration. So far, they have not found a job, have no (recognized) diploma, a history of experience in prison, one or the other handicap, do not speak German very well (yet). All employees are coached, supported in their abilities and further trained – their work and their skills are used in the best possible way. At WERTRAUM, they are given the opportunity to perform meaningful task and the certainty that their work is valued.
